Quality PVC-U roofline solutions - fascias, soffits, guttering and more

Introducing Roofline

Long-life, low-maintenance PVC-U roofline systems

Fascias, soffits and associated roofline products are essential components for any property. Exposed to the elements, they play a crucial role in protecting the roof space and rafters of your home. They may go unnoticed most of the time, but old, rotten or discoloured timber fascias and soffits can spoil the look of your property and cause expensive damage to your roof rafters.

You'll be amazed at the difference fresh, clean, robust new fascias and soffits can make to your property – at the same time as providing your roof with long-lasting protection against the elements.

Roofline components need to be durable, weather-resistant, attractive and – due to their difficult-to-access location – low maintenance. PVC-U roofline products meet and exceed all of these requirements.

Complete PVC-U roofline systems

We offer everything you need for a complete, high-performance roofline system, manufactured to the highest quality standards. From fascias, soffits and guttering to dry verge, over-fascia ventilation and all the essential trims and accessories – we can install a roofline system that will really enhance your home.

Colour-match and quality guaranteed

All our roofline systems are supplied by the same manufacturer – Eurocell – which means all colours are exactly matched across the product range. That means our whites are the same white across all products and our woodgrain finishes are all perfectly matched. Our roofline products also carry guarantees of up to 20 years against discolouration, warping and cracking.

Local supply for rapid response

Because all of our roofline products are sourced from Eurocell, we can quickly access all the materials we need for your home from the nationwide network of over 100 Eurocell branches. That means we can respond quickly to urgent jobs, getting the products you need exactly when you need them – and at great-value prices.

Why choose PVC-U roofline?

The hassle-free way to preserve your roof and enhance your home

Aesthetic appeal

PVC-U fascias, soffits and roof trims will brighten up your property, giving it a fresh new lease of life. All roofline products are available in a range of colours and woodgrain finishes to suit individual property styles and personal tastes. You can also choose plain flat boards for a simple, contemporary look, or sculpted 'ogee' style options for a more decorative finish.

Property with standard fascia boards in Golden Oak finish

Decorative Ogee style fascia boards in White finish

Low maintenance for life

PVC-U fascias, soffits and other roof trims require very little maintenance to keep them looking bright, fresh and clean for many years. PVC-U products will not rot, crack or warp and will remain a long-term, maintenance-free asset to your property.

No painting

PVC-U roofline products require no sanding, painting or treatment – ever. Installation is clean and hassle-free, with no dust or mess. Your fascias and soffits will retain their appearance and performance without the need for any preservative treatments.

Easy-clean components

Maintaining your roofline in perfect condition is easy. An occasional wipe clean with a damp cloth is enough to keep your fascias and soffits looking as good as new, for life.

Long-life performance

White PVC-U roofline products come with a 20-year guarantee against discolouration, warping and cracking. Coloured, laminated boards carry a ten-year colour-fastness guarantee, while black and brown products have a five-year colour-fastness guarantee.

Soffit boards

(White hollow soffit board shown)

For details on the full range of soffit board, see page 8

The principal roofline components are fascias and soffits. Where existing timber fascia is in good condition, PVC-U capping board can be fitted over the timber as an alternative to replacing it completely with PVC-U

Fascia boards

Standard fascia boards and utility boards in White, featuring decorative finial

Standard fascia and hollow soffit board in Golden Oak, with Universal Plus guttering in Black

High-quality PVC-U fascia board is ideal for both new homes and replacement projects. Available in a standard flat profile or a distinctive sculpted 'ogee' style, it is easy to fit and makes a smart improvement to your home.

At 18mm thick, the boards are sturdy enough to be attached directly to rafters, helping to reduce the cost of fascia replacement. They are compatible with all types of soffit, giving you a choice of styles for your roofline.

You can choose from a range of attractive colours and finishes for your fascias, soffits and capping boards:

Colours available include:

Note: Ogee fascia board is only available in white.

Soffit boards

We offer a complete range of soffit boards which perfectly complement our fascia boards. These high-quality components give your roofline an attractive, clean-edged finish and require minimal maintenance. There are three soffit styles available, which are fully compatible with our fascia systems for an exact colour-match.

Eurosoffit board

With built-in ventilation slots to ensure your loft is well ventilated at all times, preventing damp and protecting the rafters from rot.

9mm utility board

Provides a simple, clean look which can be enhanced with separate vents to maintain airflow through your loft space.

Hollow soffit board

A lightweight, cost-effective soffit solution, which can also be fitted with effective ventilators.

Colours available include:

Note: Eurosoffit board is only available in White, Golden Oak and Rosewood

Capping boards

Where your existing timber fascias are in good condition, capping board is a cost-effective way to freshen up your roofline and protect it against the elements. Our 9mm-thick PVC-U capping board is available in a choice of either standard or 'ogee' styles and in a range of colours to suit any home.

The board is simply attached to your existing timber fascias or to a new timber backboard for a first-class, long-lasting installation. Our capping board is compatible with a whole range of soffit styles.

Colours available include:

Note: Ogee style capping board is only available in White, Golden Oak and Rosewood

Protect and improve your property

A roofline sample showing the 3 in 1 accessory used to enhance your roofline solution

Enhanced solutions

Your roofline solution can be further enhanced by various add-ons which help improve ventilation and prevent birds or vermin getting into your roof space. For ventilation, disc ventilators for your soffits offer additional airflow in roof spaces. Alternatively, over-fascia ventilators can be used as an unobtrusive and effective way to ventilate your roof space. Both lightweight and durable, they can help to prevent invasion of the roof space by birds. Another way to prevent roof invasion would be to use an eaves comb filler, which fits between the fascia and the roof tiles.

In addition to these individually available items, there is a 3 in 1 solution (as shown above) which combines: **A** Over-fascia ventilation which sits underneath the felt tray, **B** Eaves comb filler and **C** In-built felt tray which prevents the roof felt from sagging and stops pools of water from forming.

Shiplap cladding in a horizontal formation, in White finish

External cladding

PVC-U cladding can enhance and refresh the appearance of your home. It provides an attractive, low-maintenance and weather-resistant solution for replacing rotten timber cladding, concealing problem areas of brickwork or adding an interesting new feature to your property.

Available in Shiplap or Open-V styles, PVC-U cladding is designed for easy installation with a simple clip-together fitting system. The range of colours and realistic woodgrain finishes available means you can create a truly unique appearance, whether you want a rustic timber-effect or a crisp contemporary white finish.

Colours available include:

Detached property with White standard fascia boards and hollow soffit boards (with soffit discs), finished with half-round guttering in Brown

Guttering

Effective, attractive, durable rainwater systems

Guttering not only ensures efficient drainage of your roof, but can also improve the appearance of your home. Our complete range of PVC-U guttering and associated components is suitable for all types of domestic and commercial property. Manufactured from high-impact, high-gloss PVC-U for a durable, weather-proof finish, it is quick to install and comes with a ten-year guarantee for durability and colour-fastness.

All styles of guttering come with a full range of matching accessories and fitting systems and offer an exact colour match with our roofline products. Cream-coloured guttering is available exclusively from Eurocell in the Universal Plus style, while ogee styling gives you the option of a more decorative, sculpted finish.

Universal Plus guttering shown in Brown

Square-line guttering shown in White

Half-round guttering

(114mm x 51mm)

The classic, widely used half-round guttering style is ideal for residential buildings of all types. It is available in 4m lengths.

Colours available include:

White Brown Black Grey

Square-line guttering

(114mm x 59mm)

Our stylish, contemporary square-line guttering is suitable for all residential buildings. The guttering is available in 4m lengths. Top-hung fascia brackets are available to give a smoother look to your roofline.

Colours available include:

White Brown Black Clay Brown

Universal Plus

(128mm x 88mm)

Designed for use on large residential buildings, smaller commercial premises and conservatory roofs. The thick PVC-U extrusion makes it durable and sturdy.

Colours available include:

White Brown Black Clay Brown

Universal XL

(114mm x 71.5mm)

A rainwater system for properties with a large roof area, such as commercial buildings and rows of terraced housing. The deep elliptical shape is designed to handle high rainwater volumes, and means that fewer downpipes are required.

Colours available include:

White Brown Black

Dry Verge

Smarten up and secure your roof edges

Designed to neaten up the edges of tiled roofs and block any gaps that could allow infestation of the roof space, dry verge is the perfect finishing touch to any roof. It is weatherproof, requires no maintenance and is the ideal way to tidy up your roof and cover any unsightly gaps.

Dry verge is a mortar-free solution that can easily be fitted to existing roofs, with no need for wet trades. The clip-together system provides a secure fitting that avoids the problem of wind uplift.

Our PVC-U dry verge is compatible with most concrete or clay interlocking tiles and comes in five colours to complement your home:

Product Guarantees

Our roofline products are supplied with up to 20-year guarantees against discolouration, warping and cracking

All Eurocell roofline profiles in white carry a 20-year colour-fastness guarantee.*

All Eurocell laminated boards carry a 10-year colour-fastness guarantee.*

All Eurocell black and brown boards carry a 5-year colour-fastness guarantee.*

PLUS

The Eurocell products we install also come with a unique colour-match promise across the range of building plastics, including fascias and soffits – assuring you of a consistent look across your home.

* These guarantees relate to Eurocell foam and rigid profiles only and are subject to the product being fitted to the manufacturer's installation recommendations.

Golden Oak standard fascia boards and hollow soffit boards, colour-matched perfectly with Eurocell windows and doors. Universal XL guttering in Brown is complimented by dry verge, also in brown

PVC-U fascias, soffits and accessories

The only choice for attractive, hassle-free roofline installations
